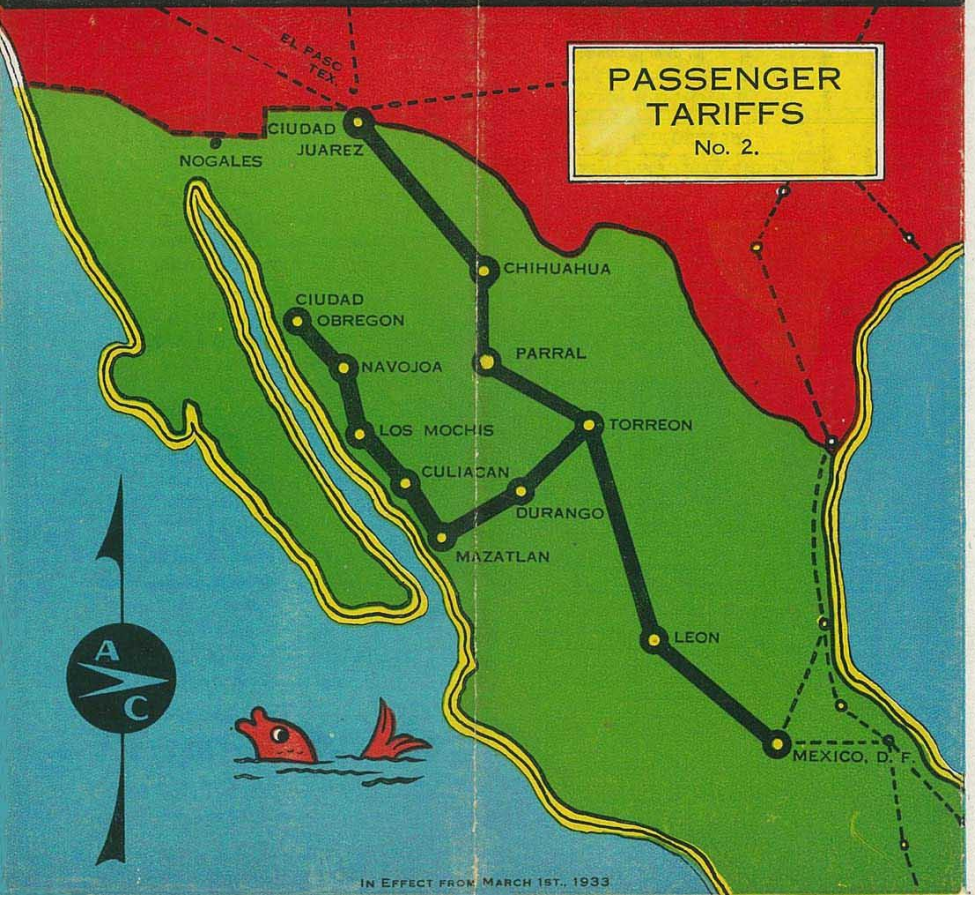
AEROVIAS CENTRALES S.A.

AEROVIAS CENTRALES S.A.



IN EFFECT FROM MARCH 1ST., 1933

HOURS INSTEAD OF DAYS!

AEROVIAS CENTRALES, S. A., offers a fast and dependable service to the Center and West Coast of Mexico from the West Coast and Rocky Mountain States of the United States.

This service brings Mexico City, the business center of Mexico, within 2 days of any point on the West Coast and provides a luxurious and comfortable means of travel to the public.

Aerovias Centrales uses luxurious multi-motored equipment manned by two competent pilots and a radio operator, the pilots holding both U. S. Department of Commerce and Mexican Department of Communications licenses, and the radio operator being in constant touch with one or more stations on the system.

You will find that Aerovias Centrales brings you closer to the beauties of Mexico, flying down the fertile and historic center plateau of Mexico, and enabling one to see Mexico from the air while making a trip of but a few hours duration.

By flying Aerovias Centrales you will avoid all the heat and discomfort which you may encounter in other means of travel, besides relaxing while you make days into hours.

You will find that the fares charged on Aerovias Centrales are the lowest air transport fares of any line operating in the world. These fares are approximately equal to rail plus pullman fares between any points on the system.

Aerovias Centrales offers the three standard transportation means that are offered by the aviation companies of the world: airmail, air express and air passengers.

You will find that our air express service is fast and dependable, and you may obtain further information thereon by communicating with our General Offices.

Consult your Postmaster for closing times on airmail to Mexico.
