The giant three and four engined air liners of Imperial Airways—the Big Ships of the Air—will bear you safely across the Channel in cushioned comfort on your trip to Europe this year. Whether your hunting ground be France, Belgium, Switzerland or Germany, you can travel there in the shortest time by Imperial Airways.

The 'planes are all of British construction and the British standards of safety are higher than any in the world. Every passenger 'plane on these services has three or four engines and can carry from 18–40 passengers. On all flights food and drinks may be purchased during the trip.

The journey will be one of uncrowded calm from hotel to hotel. There is no crush at Customs, no hectic change from train to boat and back again to train; just an effortless speeding through the air at twice the speed of an express train, sunk in the embrace of an easy chair, while all the panorama of Europe's countries slides gently away below.

Your comfort is studied to the smallest detail and every fleeting minute helps to build an experience that you cannot afford to miss.

Every detail of Imperial Airways is British.

BE SURE YOUR TICKET IS MARKED "IMPERIAL"

Any accredited Travel Agent will make reservations for you, before you leave the States if you wish, or the Company's city offices in New York, London, Paris and other Continental Cities, will reserve for you if desired.
