GENERAL PASSENGER INFORMATION

Flight Service and Accommodations

The paramount aim of the PAL staff, both flight crews and ground personnel, is to make your trip memorable, comfortable and pleasant in every way. Excellent hot meals and between-meal snacks are served on board with our compliments. When required by the schedule, meals are also provided without charge on the ground. Magazines, playing cards and writing paper are yours for the asking. Consumption of alcoholic beverages is restricted to those served without charge by the flight attendant. For complete information, refer to PAL folder entitled "Flight Information" available from your Travel Agent, at PAL offices and aboard all aircraft.

Reservations

Reservations may be made through your Travel Agent or directly with Philippine Air Lines. The PAL Automatic Reservation System permits immediate confirmation of your reservation, thus eliminating troublesome delays in concluding your plans for departure.

Passports and Visas

Your Travel Agent and/or PAL representative will assist you in complying with passport regulations, visas, immigration permits, health certificates and customs requirements, where applicable, for all countries to be visited.

Travel Funds

Many governments restrict the amount of currency a traveler may bring into or take out of a country. Passengers should carry all travel funds in travelers' checks, money orders, letters of credit, bank drafts or personal checks.

Schedules

Schedules show the time at which planes may be expected to arrive at or depart from stations. Excellent maintenance facilities and high altitude, clear weather flying assure schedule dependability. However, weather and other conditions beyond our control make it impossible for PAL to be responsible for failure to arrive or depart at scheduled time. Times shown are local standard times, and both times and schedules are subject to change without notice.

Fares and Taxes

All fares shown are for information purposes only and are subject to change without notice. Taxes imposed by government regulations are in addition to transportation charges. A 10% discount is made for round trip tickets purchased at point of origin. Fare for children two to eleven years of age is 50% of the adult fare. For a child under two years of age and not occupying a seat, the fare is 10% of adult fare; if occupying a seat, 50% of adult fare.

Arrival at Departure Point

Passengers will be advised at the time their tickets are issued when they must arrive at airport terminals. Punctuality is essential, since at least fifteen minutes must be allowed for checking out baggage, completing governmental and other formalities.

Baggage

Baggage allowance, including all types of luggage, typewriters, parcels, brief cases, etc., is limited to 66 pounds (30 kilos) per passenger. (On 'round-the-world' flights, 88 pounds per passenger is allowable.) Personal articles carried by passengers, such as overcoats, umbrellas and pocket cameras are included as personal weight and are not weighed in as "baggage." Inflammable articles are prohibited in passengers' baggage. Excess baggage, if allowed, will be charged for at 1% of the one-way fare per kilo (2.2 pounds), for the first 10 kilos. Thereafter a charge of 1/2 of 1% of the one-way fare per kilo will apply. If you have luggage which need not accompany you on the plane, you may ship via PAL Air Cargo.

Stopover Privileges

All passengers of PAL have stopover privileges at any city served by the airline and specified in their tickets, subject to local immigration regulations and time limit of tickets. Tickets are valid for a period of one year from original date of issue.

Customs

On arrival at your destination, and at some stations en route, government authorities will inspect your baggage in your presence. Used personal articles are usually admitted free of duty, while articles which may be assumed to have been purchased for resale at your destination are subject to customs duties. Complete information may be obtained from the consulates of the various countries.

General Conditions of Carriage

The conveyance of passengers and luggage by air is effected in accordance with Official Passenger Tariffs available at PAL offices and Travel Agencies.

What Time Is It?

The question of time and date may puzzle you during your flight. Here is how you can figure it out, based on local standard times:

0700	(7:00 AM)	Sunday in New York

0400	(4:00 AM)	Sunday in San Francisco
0200	(2:00 AM)	Sunday in Honolulu
2200	(10:00 PM)	Sunday in Guam
2100	(9:00 PM)	Sunday in Tokyo and Okinawa
2000	(8:00 PM)	Sunday in Manila, Hong Kong

'Round-the-World Trips

By arrangements between Philippine Air Lines and other major air carriers, PAL passengers may extend their trip around the world at little or no extra cost. Special 'round-the-world fares have prompted more and more air travelers to "go and return on a one-way ticket."

Passengers have stopover privileges at all major points for up to one year, subject to visa requirements, and a free baggage allowance of 88 lbs. (40 kilos) is granted. Ask your Travel Agent or PAL for details.

Combination Air/Sea Trips

PAL passengers may now enjoy both the speed of air travel and the fascination of life aboard ship on trans-Pacific trips. By agreement with American President Lines, tickets for a combination air/sea voyage may be purchased at fares equal to one-half the applicable round trip fares between the point of embarkation and point of debarkation on each carrier.

Special Student Fares

Reductions of 50% on round trip tickets are offered students between the ages of 13 and 25 inclusive, under certain specified conditions. For complete information see your Travel Agent or PAL office.

PAL Air Cargo

Philippine Air Lines flies thousands of pounds of international air cargo between the United States, the Orient, Middle East and Europe. Besides the many points it serves directly, PAL maintains joint rates with other major air carriers, thus offering shippers fast, dependable service to practically any point in the world. For complete information and specific commodity rates write, or contact, any PAL office or air cargo agent. International air cargo offers a means of reaching many new and previously inaccessible markets. No longer an unusual or emergency expedient, air cargo now is essential to meet the demands of customers in the far-flung market areas of the world. Each day, more and more progressive manufacturers and distributors are finding new ways to profit by the use of this valuable service. The examples shown below are typical per pound rates for shipments of more than 100 pounds. The per pound rates for shipments of less than 100 pounds are slightly higher. Specific commodity rates that are substantially lower than the examples shown below apply to many items.
