This is a cargo-eye view of one of Seaboard World's brand new DC-8 Super 63 stretched jets.

The world's largest commercial jet freighter.

Only Seaboard flies it across the Atlantic. It has 40% more capacity than regular jets which is just one reason Seaboard has more transatlantic all-cargo capacity than any other airline.

Seaboard also has the biggest all-cargo transatlantic schedule—between all of the U.S. and Europe's 21 leading commercial centers.

As cargo specialists, we put cargo where other airlines put passengers.

Which means capacity is guaranteed, shipments aren't split up, freight isn't related to under-floor baggage compartments.

Only Seaboard has this first class treatment for cargo.

So why ship your freight with a passenger airline?

Cargo is beneath them.
