Bermuda . . . once the haven of buccaneers . . . is still a haven for the traveler who seeks the delightful and different. All the beauty of the tropics . . . luxuriance of flowers, sun and beaches made for basking . . . with a quaint British accent. All the luxury of modern living in hotels, guest houses that cater to your want-to-be-waited-on whim . . . star-filled nights along the surf . . . or star-filled entertainment in the finest night clubs. Modern as tomorrow morning but boasting still an old-fashioned hospitality as British as Dickens . . . that's Bermuda! Modern as tomorrow morning, too, is your service on Eagle Airways (Bermuda) Ltd. . . . a service that has made Eagle Airways of Britain famous around the world. You fly on Eagle's super-swift, super-smooth Rolls-Royce turbo-prop Viscount 805's — the FIRST to be flown by an international airline out of New York. Eagle is Bermuda's own flag-carrying airline. It's FAST . . . it's FINEST. Fly the Eagle way . . . truly the regal way . . . to Bermuda.
