TRANSATLANTIC SKYLOCKER

SAVES MONEY • PROTECTS GOODS • SPEEDS DELIVERY

Seaboard's Transatlantic Skylocker is a unique development in aircraft Unit Load Devices. Half the size of a full igloo, the Skylocker provides shippers with the ability to have goods delivered to the customer's door without unnecessary intermediate handling. When shipments for one destination are less than pallet size, Skylocker offers advantageous flat rates which can reduce General or Specific Commodity rates by as much as one-third, when freight in the Skylocker reaches minimum requirements. Seaboard provides Skylockers to you for loading and delivers them to the consignee intact. No special handling equipment or road trucks are needed. And every Skylocker has security seals to protect your goods.

Skylockers are available only from Seaboard across the Atlantic.

- Volume: 205 cubic feet
- Payload: Up to 5,800 lbs.
- Forklift handling
- Security protection
- Weather protection
- Fiberglass with garment-hanging provisions
